

Next Parking®

Specializing in Parking Acquisitions, Asset Management, and Consulting

A proven expert in the parking industry:
Since 2001, we have acquired parking properties valued at over \$240 million and have managed over 15,000 parking spaces nationally.

Acquisitions: Our acquisitions team pursues a diverse mix of parking properties nationwide including:

- Existing, new and proposed garages
- Urban surface lots and garage structures
- Parking components of mixed-use developments
- Condominium interests in parking facilities

Asset Management: Our services typically include:

- Serving as liaison between parking operator and ownership/investment group
- All day-to-day decision making driving enhanced NOI results
- Managing a third-party operator, including soliciting requests for proposal (RFP) to replace an operator where appropriate
- Accounting, audit and P&L services
- Capital preservation management
- System upgrades, including parking equipment and lighting

Consulting: Next Parking's industry expertise encompasses the entire spectrum of parking related services. Our professionals understand the complexities of developing, operating and financing parking properties and offer our clients flexible solutions for enhancing efficiency and improving operations.
